GEORGE B. FRASER, Attorney for Honor Notary.

COLUMBUS, Ohio, Oct. 19.—The first organization of its kind in the United States to advocate extensive Federal ownership of public utilities is the Ohio Federation of Labor.

At the closing session of its convention here, this organization adopted a resolution advocating retention by the Government of railroads, telephone and telegraph lines, present owners to be paid on the basis of physical valuation; a nationally owned merchant marine, the docks to be purchased at fair valuations; the taking over of coal mining, oil wells, pipe lines and gas properties; revocation of water right patents; building of roads by the Government; extension of municipal ownership of utilities; a six to seven-hour day in the event of unemployment; and an eight-hour system; a standard wage, based on the average cost of supporting a family of five; creation of a permanent Federal Labor Commission to settle labor disputes, and national and State old age pension laws.

An income tax of 50 per cent on Federal income over \$20,000 and on personal incomes over 6 per cent is favored in another resolution which the convention adopted. The resolution further recommended the next convention of the American Federation of Labor at Atlantic City.

President Wilson was asked to sign the case of Thomas J. Quinn, out of the State of California case, and officials.

WANTS INTER-NATION

Lasting peace and universal democracy can best be obtained through creation of an "inter-nation," in which the world would be organized on much the same relation to each other as the States of the American Union. Prof. Boker, University of California declared before the Senate Foreign Relations Committee.

ATTENTION

CLASSIFIED ADVERTISERS

A POORLY worded, consumption looking advertisement has very little pulling power.

If your ad is not pulling the market, it is not worth the cost to run. The reason. We have employed trained men whose business it is to make advertisements that will pull. We will give you a thorough study of classified advertising not only in Washington but in all the cities of the United States. We will obligate you in any way to have our representative call on you. We will defend you from any criticism. We will simply want to show you how an intelligent force can be applied.
